Setting Up Application Environment
Docker CLI Installation

Date	19 November 2022
Team ID	PNT2022TMID30138
Project Name	Nutrition Assistant Application

Step 1: Go to the official Docker website:
https://docs.docker.com/desktop/install/windowsinstall/
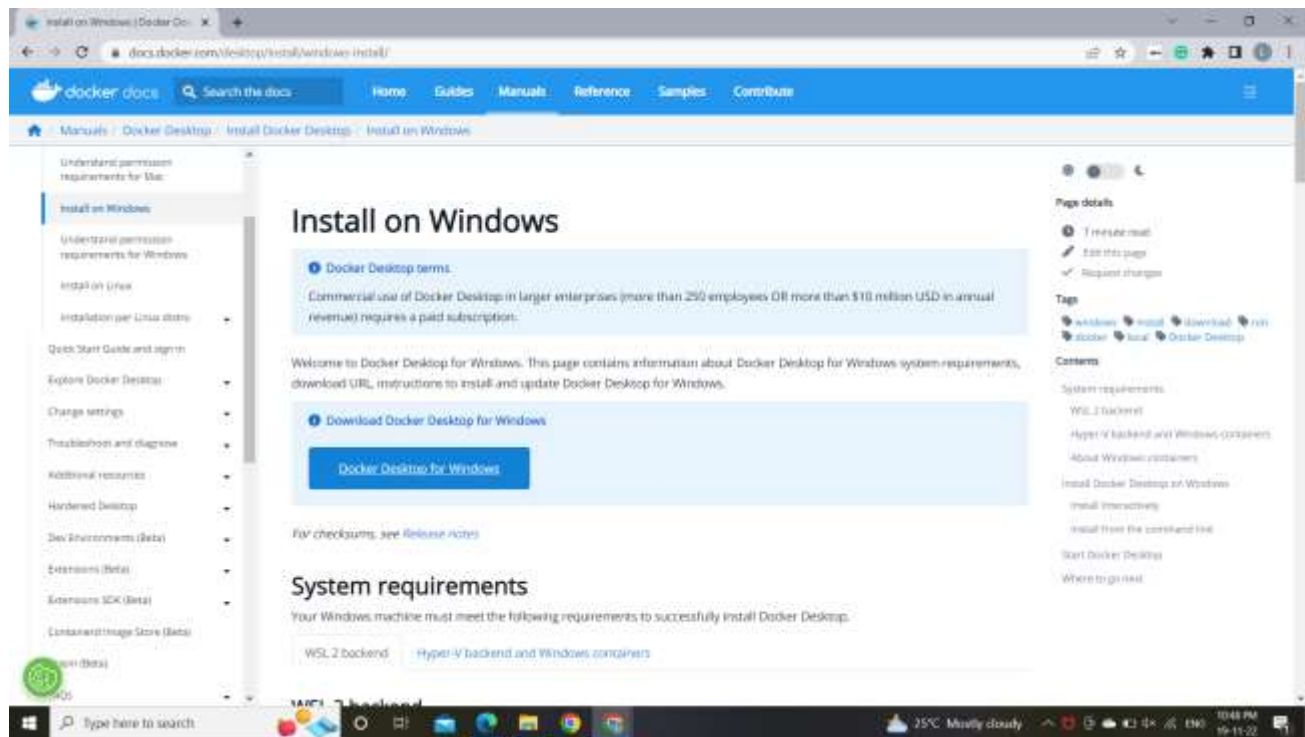

Step 2: Click that button (Docker Desktop for Windows) and download will start and it takes few minutes to complete.

Step 3: Go to downloads in the browser (or) type ctrl + J, it will navigate to the download page and double-click the particular docker file.

Step 4: Now Installation is complete. This icon was added to your desktop. Go to hub.docker.com register and create an account and log in with the same.
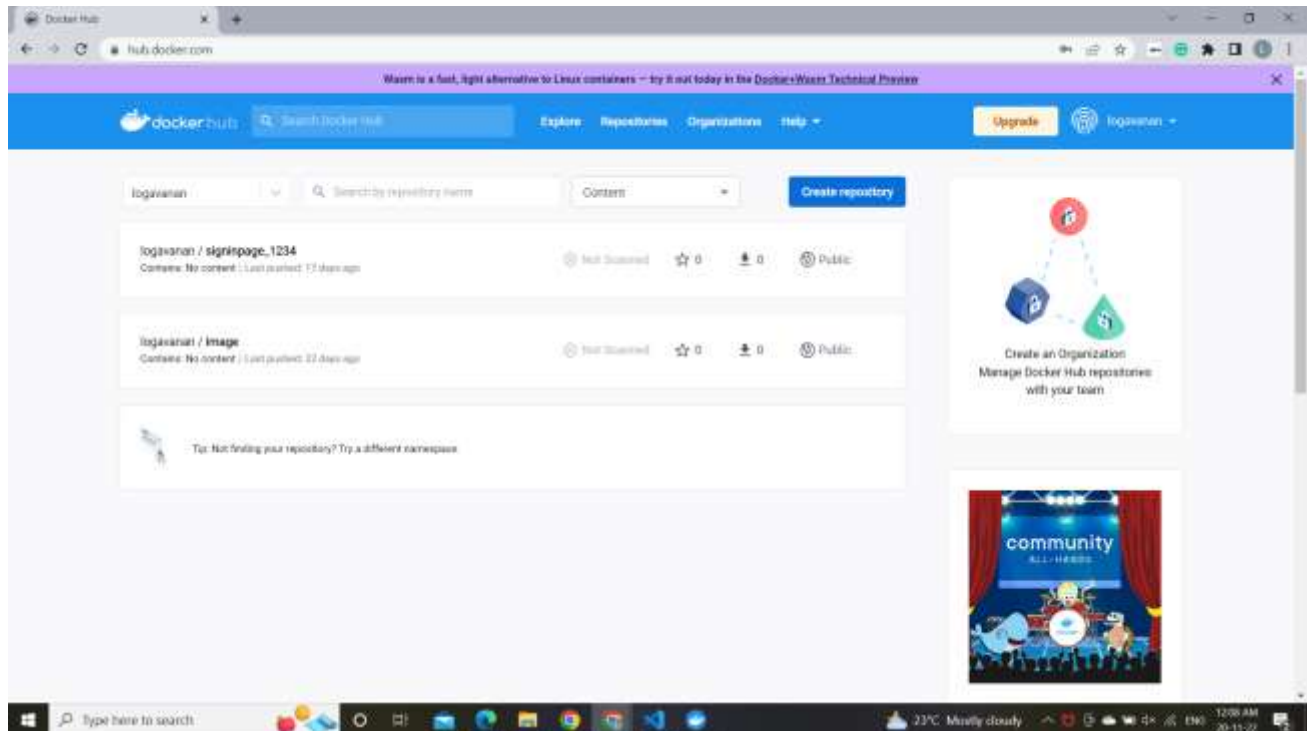

Step 4: Double-click the icon to start the docker app, you can register and log in to that app to access those credentials. Docker will start correctly, the left bottom side was shown in green colour, docker will show the status of the docker app working successfully.
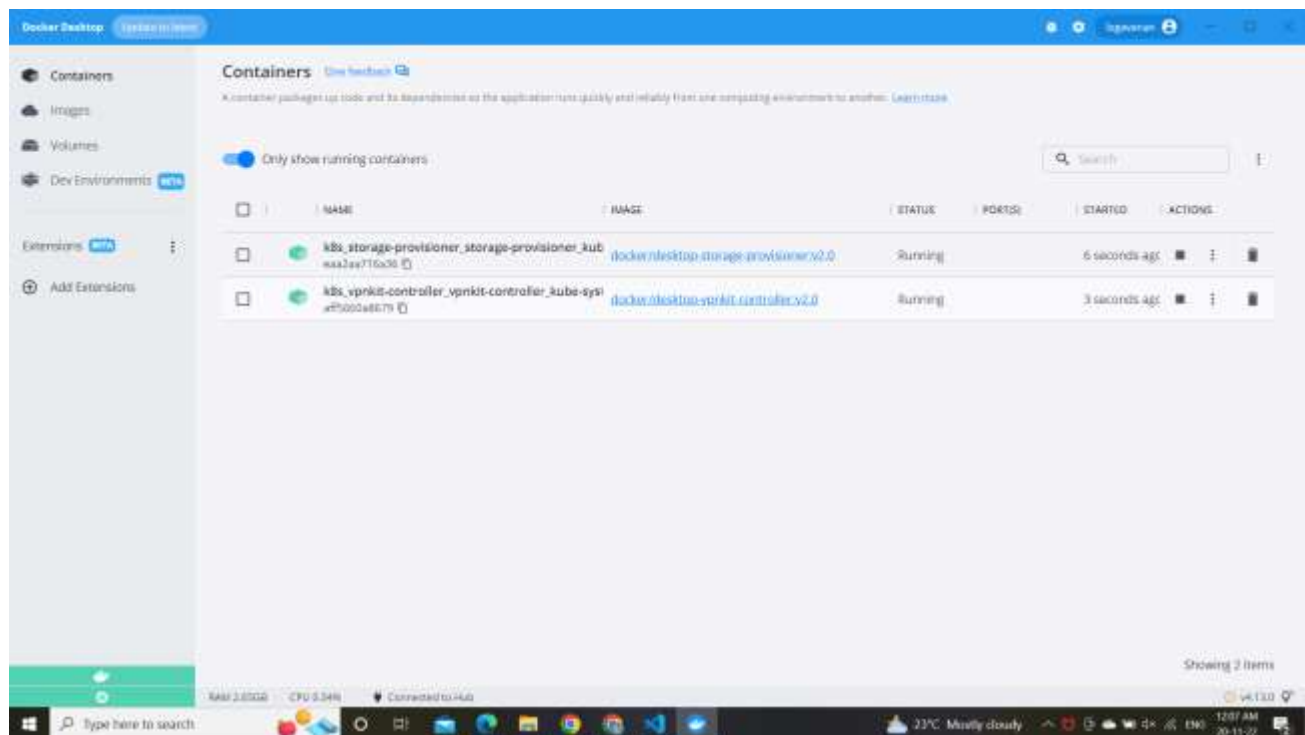

Step 6: Finally, the docker is installed successfully
